

FEROCIOUSMEET

Want to interact ?  
Use FerociousMeet

# IT'S WHOEVER NEW FOR VIRTUAL MEETING

Virtual meetings are real-time interactions that take place over the Internet using integrated audio and video, chat tools, and application sharing. They offer a way to engage students in fully interactive, online learning experiences such as lectures, discussions, and tutoring. Many virtual meeting applications integrate with course management systems, providing students and faculty with a unified learning system including access to online meetings.

# HELLO!

## I am J.V.Lavan

I am the CEO ,Co-founder and  
programmer of this project

# HELLO!

## I am G.HarishRam

I am the founder and programmer of  
this project

It's a user friendly virtual meet and it can be modified according to your needs

# ▶ CHAT BOT

We have chat bot it can help you when ever you need support and it is interactive

# Text – Speech

Its an innovative feature of our website .if you copy any text and tap it will start to read the text you have copied and the voice we have used is a non-profit voice assistant. Even we have a welcome message whomever visits our website

# Our meet is specialized in 2 categories:

## FMEET

If user wants to have a personal virtual chat then the person can use fmeet. it is personalized for one-one interaction

## JMEET

If the user wants to do a presentation or want to do a conference virtual meet then the user can prefer jmeet it is personalized for more than 2 people

# Our Process Line

## Laid foundation

Created with basic html and used free server sponsored by Jitsi

## User interface

Chat bot, text-speech, cookies for website analytics

## Our own server

**If anyone sponsors we can increase our capacity and interface**

## Team expansion

If everyone loves our virtual meet and if we get great response we would expand our team

# THANKS!
